## The State of the Beaver 2017

February 22nd, 23rd and 24th

Cow Creek Indian's Seven Feathers Convention Center Canyonville, Oregon

Our conference website for viewing and registration

<http://stateofthebeaver.org>

### Beaver – Agents of Regeneration

The focus of the 2017 conference will be on beaver, its role in both natural regeneration / ecological succession and designed regeneration / restoration ecology.

### Bringing back Beavers to Bring back Life

In natural regeneration or ecological succession - the gradual and orderly process of change in an ecosystem brought about by the progressive replacement of one community by another until a stable climax is established.

In designed regeneration - the end-goal of regenerative design is to redevelop systems with absolute effectiveness, that allows for the co-evolution of the human species along with other thriving species.

### Beaver Banquet hosted dinner and a movie

movie : **10 Decades Climate Adaptation and Beaver Restoration in the Methow Valley**

**Keynote Speaker:** Ph. D. Torre Stockard      Methow Valley Beaver Project Update

### The State of the Beaver

conferences provide an international venue for academia, agency and stakeholder to gather and disseminate information pertinent to beaver ecology.
